

Dear ACEC/NC Member,

We are writing to invite you and others within your American Council of Engineering Companies of North Carolina (ACEC/NC) member firm to continue as participants in your Political Action Committee (ACEC NC PAC). ACEC/NC is the Voice of North Carolina's Engineering Industry and the ACEC NC PAC is our industry's state political advocacy group. Your contribution will support and amplify our voice to educate our elected officials about the benefits of the private sector engineering industry.

Our industry has made great strides in protecting the business interests that we rely upon for our livelihood and delivery of an efficient infrastructure program for all North Carolinians. The passage of HB 871 – FAIR CONTRACTS (anti-Third Party Indemnification and Duty to Defend) is a prominent example of these efforts. **This year will continue the drive for Long-term Sustainable Transportation Funding Reform with the NC First and NC TEN Commissions and industry partners.**

Key points concerning ACEC NC PAC include:

- ACEC NC PAC's sole purpose is advocating for our industry's business interests.
- 100% of ACEC NC PAC's contributions go to supporting pro-business North Carolina Legislative and Council of State candidates.
- Contributions from you and other member firm principals and employees must be personal contributions.
-

We must not become complacent and allow the great strides we have all worked for to disappear, so please contribute generously to your ACEC NC PAC. Contributions can be made in any amount but are limited to \$5,600/two-year election cycle. Please be generous in supporting the PAC's efforts. Our goal for 2022 is raising \$25,000.
