A message from Executive Director James Smith

Dear ACEC/NC Member,

Wow! What a difference a year makes. This time last year, we were marking 365 days of continuous lock-down. And now, we are talking about the continued growth of events and business opportunities for our members. This past week, we held a great Business Practices Committee event focused on two important issues facing our industry: the significant growth in available monies from federal legislation and the continued labor challenges. Kudos to the team for putting this event together, and we look forward to future discussions about pivotal topics.
